```java
public static void main(String[] args) {
    Scanner scan = new Scanner(System.in);

    int i = scan.nextInt();

    double d = scan.nextDouble();
    scan.nextLine();
    String s = scan.nextLine();

    scan.close();
    // Write your code here.

    System.out.println("String: " + s);
    System.out.println("Double: " + d);
    System.out.println("Int: " + i);
```

Line: 7 Col: 32
